N/R.G-dinu Jerotijević Urošu

Predmet: Poslovna preporuka /Business recommendation

Zadovoljstvo mi je da preporučim preduzeće "RBD Project Engineering" d.o.o. (Niš) i usluge koje oni nude.

Naša kompanija, EMAS Partners LLC, je odgovorna za menadžment projekta jednog od multimilionskih investicionih fondova koji investira u fabriku peleta u Južnoj Srbiji. "RBD Project Engineering" d.o.o. je angažovan za nadzor gradilišta u naše ime, kao i za inženjersku i tehničku podršku, za pronalaženje partnera, ugovaranje, i menadžment po ugovoru. Pored toga, "RBD Project Engineering" nam je po potrebi omogućio stručnu podršku za mnoštvo specifičnih inženjerskih oblasti, kao što su: elektroinstalacije, vodosnabdevanje i kanalizacija, statika, arhitektura, i termotehničke instalacije.

Saradjivao sam neposredno i neprekidno sa dva ključna čoveka iz preduzeća RBD, sa vlasnikom i direktorom, g-dinom Lojaničić Radojicom, i sa njegovim stručnim saradnikom g-dinom Zoranom Djordjevićem. Smatram da su oni i njihove kolege profesionalci, tehnički kompetentni, posvećeni projektu i potpuno pouzdani.

Trenutni pozitivan status našeg projekta je u mnogome doprinos RBD-a.

Do sada je bilo, a biće i u buduću, zadovoljstvo saradjivati sa RBD-om. Ukoliko Vam je potrebno više podataka ili komentara, molim Vas da ne oklevate da me kontaktirate.

I am pleased to highly recommend "RBD Project Engineering" d.o.o. (Nis) and the services they offer.

Our Company, EMAS Partners LLC, is responsible for the project management of a multi-million € DFI in a pellet plant in Southern Serbia. RBD Project Engineering" d.o.o. was engaged to provide Site Supervision on our behalf as well as ongoing engineering, technical, sourcing, contracting and contract management support. RBD Project Engineering" has additionally made available on an as needed basis expertise in a variety of specific engineering disciplines such as: Electrical, Water/Hydro, Sewerage, Civil Works, Structural and Thermotechnical.

I have dealt directly and on an ongoing basis with two of RBD's keymen, Owner and Director Mr. Lojancic Radojica and his associate Mr. Zoran Dordevic. I have found them and their other colleagues to be professional, technically competent, timely in their feedback, committed to the project and totally reliable.

The positive status of the project at this time is in no small part due to the RBD contribution.

It has been and continues to be, a pleasure to work with RBD. Should you wish any additional input or comments please don't hesitate to contact me.
